7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.
3. *Mr. Trotter*—Resolution—That, in the opinion of this House, (a) the Department of Education should make grants available for the purposes of furthering immigrant students' command of the English language to any Board of Education which undertakes to set up facilities for this purpose; and (b) that the Department make available its technical staffs to advise on the setting up and purchase of language laboratories and teaching aids for this purpose.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used

to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. MacDonald*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.

15. *Mr. Pitman*—Resolution—That, in the opinion of this House, this Government should consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.
16. *Mr. Deans*—Resolution—That, in the opinion of this House, it is advisable that legislation be enacted to establish a Prices Review Board for the purpose of investigating what seem to be, in the opinion of the Board, unwarranted increases in the prices of goods manufactured or sold in the Province of Ontario, by such inquiry to publicize situations where increases in price are not justifiable in the public interest, and by such publicity to inform the consumers of Ontario of the results of their investigation.

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.
3. *Mr. Trotter*—Resolution—That, in the opinion of this House, (a) the Department of Education should make grants available for the purposes of furthering immigrant students' command of the English language to any Board of Education which undertakes to set up facilities for this purpose; and (b) that the Department make available its technical staffs to advise on the setting up and purchase of language laboratories and teaching aids for this purpose.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used

to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. MacDonald*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.
3. *Mr. Trotter*—Resolution—That, in the opinion of this House, (a) the Department of Education should make grants available for the purposes of furthering immigrant students' command of the English language to any Board of Education which undertakes to set up facilities for this purpose; and (b) that the Department make available its technical staffs to advise on the setting up and purchase of language laboratories and teaching aids for this purpose.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used

to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. MacDonald*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.

15. *Mr. Pitman*—Resolution—That, in the opinion of this House, this Government should consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administrated by a Board constituted to hear applications and make awards for compensation.
16. *Mr. Deans*—Resolution—That, in the opinion of this House, it is advisable that legislation be enacted to establish a Prices Review Board for the purpose of investigating what seem to be, in the opinion of the Board, unwarranted increases in the prices of goods manufactured or sold in the Province of Ontario, by such inquiry to publicize situations where increases in price are not justifiable in the public interest, and by such publicity to inform the consumers of Ontario of the results of their investigation.

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.
3. *Mr. Trotter*—Resolution—That, in the opinion of this House, (a) the Department of Education should make grants available for the purposes of furthering immigrant students' command of the English language to any Board of Education which undertakes to set up facilities for this purpose; and (b) that the Department make available its technical staffs to advise on the setting up and purchase of language laboratories and teaching aids for this purpose.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used

to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.
